

## Introduction

*Thank you* for considering Andrei's Conscious Cuisine & Cocktails for your upcoming special occasion!

To us, serving food and drinks is not enough. It's important to go further, to think responsibly and to care deeply about all aspects of preparing our food, serving it with personality and flair, and creating an environment where sharing a meal enhances relationships with family, friends or colleagues.

Because of this philosophy, people around Southern California are quickly connecting with Andrei's and the buzz is growing. From our sophisticated chic furnishings and décor, our professional and personable staff, to our award winning cuisine, your guests will be overwhelmed with all aspects of your event.

Named in memory of Andrei Olenicoff, the restaurant and events center embodies his very best traits – his sense of adventure, his commitment to sustainability, and his openness to new friends, new ideas and new experiences. Each and every time you visit, we promise to share our passion for a restaurant experience in which every detail has been carefully and, yes, consciously considered with your enjoyment in mind.

If you have a private event elsewhere, you can still enjoy our delightfully conscious menu. Prix fixe and hor d'oeuvres options are available or our team can work with you to create a special selection that suits your tastes and needs.

Whatever the occasion, we will help you to make your event special and unique. Enclosed you will find our Private Dining & Events Menus and Information Package. Please feel free to contact us anytime. We look forward to hearing from you soon and are honored to have the opportunity to create a memorable event for you and your guests.

*"healthy cuisine & decadent flavors can coexist"*

*-Natalia Olenicoff, Managing Partner*
